- Warning System

Introduction

- ✤ Located 19.0 S and 169 W
- Under the Ministry of Natural Resources.
- Met. Service located at Hanan Airport & Niue reference meteorological station.
- Our Vision: "A prime driver of weather and climate services."
- Our Mission: "To provide credible and timely weather and climate services for all stakeholders."

Operation

- ✤ Niue Met Service is not 24/7.
- ✤ Tropical Cyclone event: 24/7.
- Air NZ flights, Monday12am to 4pm.
- Air NZ flights, Friday 12am to 4pm.
- Tuesday, Wednesday and Thursday are normal working hours 8am-4pm.
- Saturday, Sunday and public holidays are 8:30am to 10:00am.

Tropical cyclones impact to Niue

It reduces Niue's economic development.
Affect the people's lifestyles.
Affects environment, marine and coastal ecosystems
Damage to Niue's government infrastructures

Public road
Govt building
Hospital
Schools
Power
Water

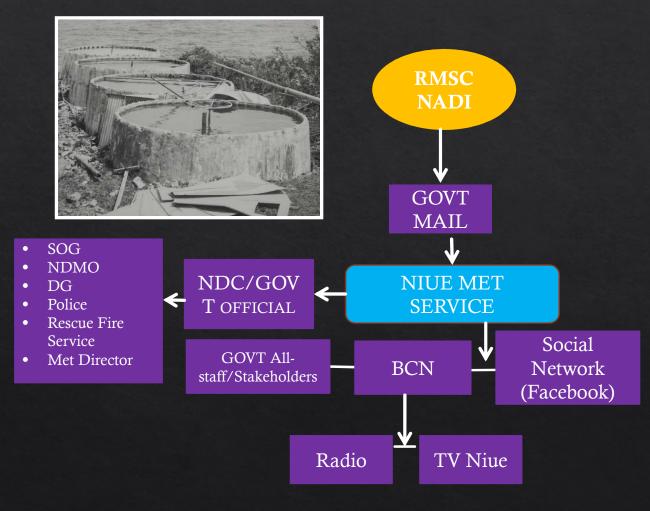

Tropical cyclones impact to our Communities

Block roads and access to villages or emergency agencies.
Damage to homes e.g. power, water and shelter.
Communication break down.
Sea spray on people's Belongings e.g. boats, cars, houses etc....
Damage to food crops due to strong winds and heavy rain.

Tropical cyclones impact to our Agencies

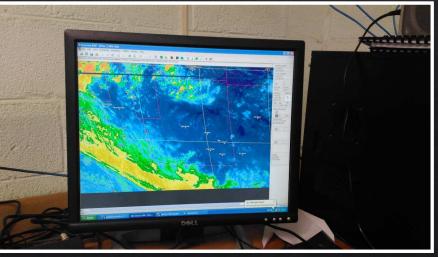

✤RMSC in Nadi prepares Niue TC advisory's. ✤Niue Met simplify and translates advisories. ✤Advice the Niue Disaster Council. Prepare sat images and TC forecasting tracking map. *Disseminate amend advisory and maps to all stakeholders.

Warning Systems

- RSMC Nadi is responsible for issuing and Cancelling warnings for Niue. Strong Wind, Damaging Swell and Heavy Rain.
- RSMC Nadi also responsible for issuing TC reports (Disturbance, Advisories, SWB).
- Niue receives TC and non-TC reports through Govt email & EMWIN.
- Event of TC Met. Service is to notify respective Government officials and NDMO (Niue Disaster Management Officer)
- Niue Met will become a 24/7 Operation until cyclone moves well away from Niue.

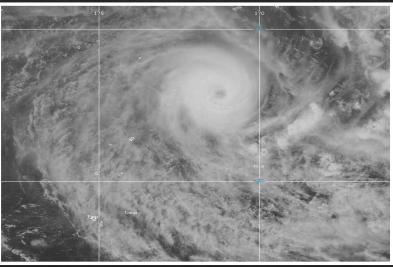

Challenges

- ♦ Unplanned power outages.
- People look to other sources for weather information.
- ♦ Translations takes time.
- One source of internet via government network.
- Providing information on social media takes time as priority is on core operation.
- ♦ Not a 24/7 operation.

Recommendations

- Further training on public media to promote our products.
- Promote public awareness on Tropical Cyclone.
- Preparation for the TC 2019/2020.
- Pre-cyclone briefing for key stakeholders.
- Further training on Tropical Cyclone forecasting.
- Safety gears for staff during weather observation.
